### Introduction

Filtrex comprises a comprehensive range of oil and air filters for the majority of motorcycles, road and off-road, new and old, including ATVs and watercraft.

Filtrex products have been developed in conjunction with and used by leading motorcycle race teams. In FIM World MX1/2 championships, as well as the British Superbike championship, Filtrex has proven itself to compete at the highest levels, offering the everyday motorcyclist a premium product at competitive pricing.

Oil filters are manufactured in 'canister' and 'paper' types, offering high performance filtration of engine lubricant whilst guaranteeing optimum flow rates and oil pressures. 'Paper' types feature a unique all-round mesh casing increasing filter stability and rigidity over standard filters. 'Canisters' are produced with lightweight hard-wearing casings for durability and longevity demanded by motorcycle use.

Air filters are available in a selection of varieties according to bike application. Performance sportsbike filters are produced using an epoxy coated steel mesh sandwiching multi-layered cotton gauze, set within an EPDM frame. Off-road and Scooter filters utilise a double foam layer construction of varying perforation to optimise air cleansing whilst maximising air flow.

With an ever-increasing range of oil and air filters, Filtrex ensures retailers, dealers and workshops always have a great source of performance filtration products at a fraction of OEM cost.

Filtrix filters are manufactured for Bike It International Ltd (UK).

Warranty: Filtrix filters come with a 12 month limited manufacturer's warranty. The product is guaranteed to be free from any manufacturing faults or defects.

The product should be used only for the purpose for which it was manufactured, in compliance with the servicing schedules of the engine / vehicle manufacturer and should never be adapted.

If believed to be defective, the product should be returned to Bike It via the retailer/supplier with a copy of the purchase receipt. After inspection by the manufacturer, upon confirmation of the defect, the product will be replaced via the same retailer / supplier.

No responsibility can be accepted by Bike It International Ltd for indirect or consequential damage/loss caused during use of Filtrix products even when faulty.

### Oil Filter Pliers

Order Code: OFWPLI

### Oil Filter Wrenches

All attach to 3/8" socket set handle

Order Code Size

- OFW65 65mm, 14 flutes, 1 step
- OFW68 68mm, 14 flutes, 1 step
- OFW76 74/76mm, 15 flutes, 2 steps
- OFW80 80mm, 15 flutes, 1 step
- OFWSTP Oil filter wrench strap

OFW7612

OFW7612 76mm, 12 flute to fit some BMW

Universal adjustable oil filter wrench 65-76mm.

Order Code: OFWUNI

OFW65/68/76/80

OFWUNI

OFWSTP

### Super Grip Gloves

'Sure Grip' Mechanics Glove with rubber palm and finger grips. Offers protection to hand and increases grip. Great for handling tyres  
1 Size Fits All

Order Code: GLVMEC02

### Latex Gloves

Box of 100

Order Code Size

- GLVLM Medium
- GLVLT Large
- GLVLTXL XL

Dermatologically friendly  
Prevents Infection

### Oil Drain Pans/Cans

8ltr Oil Drain Pan Easy and efficient collection and disposal of engine oil/fluids. Non-spill pouring spout. Oil filter drain ledge. Easy grip rim.

Order Code: OILPAN

10ltr oil drain pan featuring front and rear hand-grabs, directional spout, rolled edges to prevent spillage.

Order Code: OILPAN10

Collected oil is sealed inside can, carry handle and stoppers allow can to be removed and drained cleanly without spillage. 6ltr Oil Drain Can

Order Code: OILCAN6

### Oil Cleaning Bolts

Magnetised bolts attract shards of waste in oil which can damage engines.

| OCB10AL    | Alloy  | 10mm  |

### Funnel

2 pc plastic fuel funnel (funnel & extension pipe). Removable flexible stem. 14.5 cm catchment. Handle. Gauze filter

Order Code: SYP003

Metal oil funnel with flex pipe

Order Code: SYP005

## Rechargeable LED Work Light

- 27 LED Work Light
- Rechargeable & Cordless
- 240V charger
- 12V in-car charger
- Super bright and long life
- Swivel hanging hook
- Ideal for workshops and many other applications

Order Code: TLSLED08

## Air Filter Care Service Kit

This service kit contains a pump spray filter cleaner and aerosol of service oil for use with Filtrix performance air filters. Filters should be serviced every 2000 miles to maintain optimum performance.

Order Code: AIRKIT01

## Pro Filter

FAST ACTING FOAM FILTER CLEANER

Pro-filter is another favorite and one of our best sellers. Pro-Filter is designed to remove dirt and tacky oil from all types of foam air filters. Simply immerse the dirty filter in the solution and squeeze gently to remove the tacky oil, then wash the filter in a bucket of warm water with a splash of Pro-Clean to remove any remaining dirt or dust, finally dry thoroughly before re-using the filter.

Order Code Description  
PCNPFT5 5 Litre

## Pro Filter Cleaning Kit

FOAM FILTER CLEANING KIT

Filter Kit includes everything you need to clean and prepare foam filters.. The kit contains: 5 LTR PRO FILTER • DIRT CATCHING TRAY • FILTER PREP BUCKET • HEAVY DUTY NITRILE GLOVES • All contained in a 20 LTR CLEANING BUCKET

Order Code: PCNFK1

## Hand Scrub

ADVANCED FORMULA HAND CLEANER

Hand Scrub is a superior hand cleaning gel containing polymer beads, sanitizer and moisturizers to ensure clean and protected hands.

Order Code Description  
PCNHS500 500ml

## De Greaser

HIGH POWER DE GREASING AGENT

Degreaser is a specially designed and blended formulation, perfectly balanced to remove grease and dried oil build up on chains, sprockets, spindles, engines etc. Heavily soiled components can be immersed in the De Greaser fluid and left until corrosion and soiling is removed from the surface.

Order Code Description  
PCNDGR1 1 Litre  
PCNDGR5 5 Litre

## De Greaser (Aerosol)

HIGH POWER CLEANER DE GREASER

Aerosol De Greaser is a fast acting quick drying cleaner/degreaser specially designed for the fast and easy removal of grease and oil deposits on discs, chains, sprockets, engines etc, when the need to remove grease is immediate.

Aerosol degreaser is completely safe on discs and all braking components, leaves no residue and dries instantly.

Order Code Description  
PCNDGA400 Aerosol, 400ml

## Fuel Measuring & Mixing

Order Code Description  
GTD003 Graduated measuring jug with handle 500ml

GTD004 Graduated measuring jug with handle 1000ml

GTD003

## Fitting Instructions - Oil Filters

A vehicle's oil filter should be replaced at the correct stage of the engine/vehicle manufacturer's servicing schedule. Failure to replace the oil filter within the correct time or mileage can increase the risk of engine wear and damage.

It is recommended that the oil filter is replaced by an experienced and qualified motorcycle technician.

Installing a new oil filter:

- Ensure a suitable drip-tray is located under the engine for oil collection.
- Remove the oil drain bolt to drain the oil from engine.
- Remove the old oil filter using a suitable tool.
- Clean the oil drain bolt and surrounding surfaces, then reinstall to engine.
- Check that the new filter is the same specification as the old (eg: height, width, diameter, and canister thread).
- Part fill the new filter with the new engine oil\*, slowly rotate the filter by hand to allow the oil to absorb into the filter material (canister type only).

For paper type filters clean housing then check and replace O-Rings if needed.

- Apply a thin film of clean engine oil over the sealing ring.
- Clean around the filter contact area of the engine, and wipe a thin film of clean engine oil where the filter will contact.
- Fit the new filter as per engine/vehicle manufacturer's instructions.
- Add new engine oil\* to correct level (remember to stand bike upright to check oil level).
- Clean and reinstall the oil filler cap.
- Run the engine to running temperature, then check for any leaks around the filter, drain bolt and filler cap.
- Allow the oil to settle and recheck the level. Top up with more engine oil if necessary.
- Dispose of old oil responsibly and correctly to protect the public and environment. Guidelines can be found from local authorities for correct collection and disposal.

\* use the correct oil specification as recommended by the engine/vehicle manufacturer

## Fitting Instructions - Air Filters

A vehicle's air filter should be replaced at the correct stage of the engine/vehicle manufacturer's servicing schedule. Failure to replace the air filter within the correct time or mileage can increase the risk of engine wear and damage.

It is recommended that the air filter is replaced by an experienced and qualified motorcycle technician.

Take off the air filter inside stock intake box, which is either secured by bolt or buckled by tenon. \* If you have trouble removing it, please visit an authorised dealer for help.

- Spray FILTREX Air Filter Oil evenly over the air filter. DO NOT OVER OIL AIR FILTER. Over-oiling may interfere with the proper performance of the engine. Note that scooter air filters are pre-oiled.
- After waiting several minutes for the oil to be absorbed into the filter, install the filter back to the intake box. Be sure that the intake box is correctly closed and secured.
- Service the filter at least every 5000 kilometres to maintain optimum performance. We recommend that the filter be serviced more often on high-performance street applications. Always inspect your filter whenever you change your oil.
- For off-road applications it is recommended to frequently check filter and clean and re-oil especially after riding in extreme conditions.
