SW-MOTECH – One brand, one vision

The perfect combination

After many years of joint development and production of high quality motorcycle accessories, the year 2015 sees SW-MOTECH and BAGS-CONNECTION unite under one brand: SW-MOTECH now serves as the corporate umbrella for the formerly two companies. Besides their passion for premium and innovative products the two firms already have shared common headquarters in Rauschenberg, Germany, since the year 2006.

Ready for the next adventure!

We're constantly setting new standards. With lots of motorcycle models that hit the market, new and specifically tailored products leave our production sites – from crash bar to luggage system or component protection. This innovation speed also is mirrored in this catalogue: Basically every product line puts forward new entries – starting with the robust TRAX ADVENTURE aluminum touring cases, but also covering an extend-

ed waterproof portfolio, including the first all weather QUICK-LOCK tank bag Yukon 90, and the ergonomic motorcycle seat cushion TRAVELLER.

Below: Adam Stephens, Design and Development

A passion for quality

Our management, designers and engineers alike are driven by a passion for motorcycles, which is reflected throughout all of our products. SW-MOTECH accessories are built to accompany you on any adventure, no matter if you go on a relaxed street ride, a short urban trip or off road. We make a simple promise: We offer exceptional quality. Our products and services are outstanding – in craftsmanship, design and usability.

Backpack Trooper

Through the rear mirror

SW-MOTECH's history began in 1999 with the development of motorcycle gear made from metal, while BAGS-CONNECTION's first line for high quality textile accessories started production in 2003. Shortly after, the two companies found common ground in their passion for motorcycle accessories. A history of jointly produced products was the result, and today SW-MOTECH stands for long term expertise in engineering and manufacturing of textile and metal solutions alike.

New TRAVELLER PRO Comfort Cushion (AIRHAWK® inside)

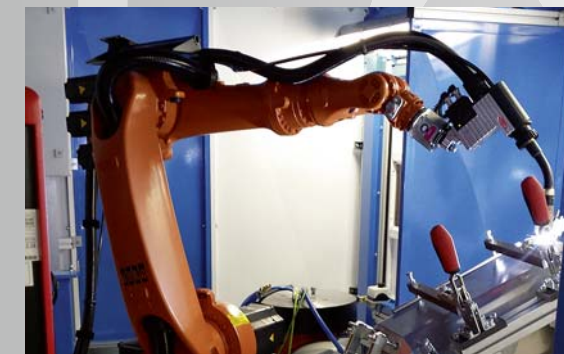

Currently we have a footprint in more than 60 countries as one of the leading suppliers of motorcycle gear. Our high quality accessories and luggage systems cater to the needs of motorcyclists all over the world as well as to international motorcycle manufacturers. As of now the SW-MOTECH headquarters span more than 5.970 square meters and house more than 100 employees. Another 80 colleagues are working at the Czech subsidiary in Brno.

The best luggage solution for every motorcycle and requirement: From the light AERO system, continuing with the tough TRAX ADVENTURE aluminum touring case, up to the waterproof Drybag product line SW-MOTECH offers a broad range of high quality motorcycle luggage. Ease of use is one of our primary concerns: Tank bag, side case, top case and tail bag alike easily find a secure mounting place on the motorcycle by employing the versatile QUICK-LOCK carrier system.

DAKAR Panniers Set

Reliable companion

DAKAR panniers are built for durability and water resistance. The sturdy side bags and waterproof inner bags are suited for nearly any environment – from the extended off road trip to daily city driving.

The panniers are available either with a motorcycle specific support arm (for use with DAKAR panniers only) or in a version with strap fittings that can be mounted on nearly all current side carrier systems.

(1) MODEL SPECIFIC VERSION

2 DAKAR panniers, 2 waterproof inner bags, 2 support arms (model specific)

 Application lists
shop.sw-motech.com // p.164

(2) UNIVERSAL VERSION

2 DAKAR panniers with universal carrier fastenings, 2 waterproof inner bags
Art.No.: BC.HTA.00.741.11000/B

Capacity: 64 l (per set)
Dimensions: 35 x 45 x 25 cm (h/w/d) per bag
Weight: 1.600 g per bag
Material: ABS reinforced 1680 D ballistic nylon

Video clip

MOUNTING THE MODEL SPECIFIC VERSION: Slide pannier onto support arm from the bottom until it snaps into place. Secure DAKAR with velcro strap across pillion. Please note: Employing the original support arms allows mounting close to the bike; the panniers have been developed to also fit bikes with overhead exhausts.

MOUNTING THE UNIVERSAL VERSION: Strap fastenings fitting most carrier brands, among others SW-MOTECH, GIVI and Hepco & Becker.

BLAZE® Panniers Set

Traveling light

The lightweight BLAZE panniers perfectly integrate into a naked bike's or sport motorcycle's styling. At the same time the compact saddlebags, made from tough 1680 D ballistic nylon, come with a fastening tailored for the best driving quality possible: Bike model specific support arms offer a safe

fit and avoid swaying even when driving at high speeds. With its QUICK-LOCK system, mounting and removal of the BLAZE panniers is just a matter of seconds.

FEATURES

- > Removable support arm
- > QUICK-LOCK locking slider (1)
- > Zippered volume expansion
- > Retroreflective details
- > Top loading function
- > Outside pocket with side loading function

INCLUDED

2 BLAZE pannier bags, 2 inner bags, model specific mounting kit which is only usable for BLAZE system (consisting of 2 QUICK-LOCK frame mounts and 2 support arms)

 Application lists
shop.sw-motech.com // p.164

Capacity: 28-42 l (per set)

Dimensions: 30 x 44 x 14 cm (h/w/d)

Weight: 1.200 g (per bag)

Material: 1680 D ballistic nylon

Video clip

AERO ABS Side Case Set

Best of both worlds

With a wall thickness of 2.5 millimeters AERO side cases combine a saddle bag's low weight with the robust construction of true touring luggage. The high quality lamination mirrors the craftsmanship that went into the making of the ABS reinforced case, while the original QUICK-LOCK carrier system provides easy luggage handling. The carriers themselves also can be removed within seconds.

FEATURES

> Integrated lock system > retroreflective details > 2.5 mm wall thickness

INCLUDED

2 AERO side cases, 2 waterproof inner bags, luggage retention straps, 2 zipper locks
Art.No.: BC.HTA.00.675.11000/B

Please note: QUICK-LOCK EVO side carrier and/or adapter needed for mounting (p.26/29)

Capacity: 50 l (per set)

Dimensions: 38 x 54 x 24 cm (h/w/d) per bag

Weight: 1.900 g (single pannier)

Material: ABS laminated with 600D MBD polyester

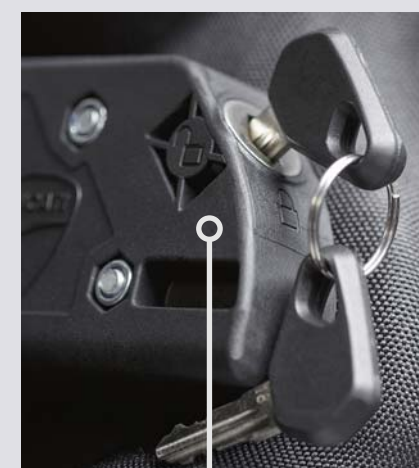

ALSO AVAILABLE

Set of 2 side cases with model specific side carrier, anti-theft device and adapters

Application lists

shop.sw-motech.com // p.164

TRAX ADVENTURE Aluminum Case System

Ready for adventure!

The TRAX ADVENTURE has been built without compromise: The touring case system offers durability and seal tightness against water and dust as well as easy handling.

The tough aluminum cases with a capacity of 37, 45 or 38 liters (side/top) accept any challenge – whether you take your luggage on a rough country ride, a relaxed road cruise or for a trip to the city. The robust case with a wall strength of 1.5 millimeters also lends itself to a sporty driving style. For optimal lean angle the side cases sport a large chamfer, corner caps made of glass-reinforced plastics offer additional protection.

TRAX ADVENTURE cases are anodized (silver version) or powder coated (black version) against residue and corrosion.

INCLUDED

- > TRAX ADVENTURE aluminum case
- > Pre-installed mounting rails
- > Lid restriction rope
- > Convenient carrying bag

Please note: ALU-BOX lock cylinder sets (p.18), QUICK-LOCK EVO side carrier/-adapter kits (p.26) and ALU-RACK top case carrier (p.30) needed for installation.

Application lists
shop.sw-motech.com // p.164

ALSO AVAILABLE

TRAX ADVENTURE case set with 2 side cases, side carrier, adapters and locks

BEST BUY

TRAX GEAR+ touring and camping accessories (p.18/19)

Strap loop for fastening additional luggage

Embossed pattern lines add to case stability

Corner caps for additional protection

Chamfer for optimal lean angle and ground clearance

Sturdy handle allows easy case mounting and removal

Quick release fastener for removable lid (lock on opposite side)

Available with anodized or powder coated finish

MADE IN GERMANY

Sealed against water and dirt

TRAX ADVENTURE has been constructed to withstand water and dust alike. The body's sealing gasket, welding seams, even rivets and screws have been designed for one purpose: To keep weather and driving conditions alike from having any impact on the luggage.

Sturdy companion for any adventure

Robot welding the case body produces thin seams that provide high stability. The lid is reinforced by lateral ribbings, while embossed pattern lines add to wall stability. In addition the pre-installed mounting rails serve as a strengthening frame for the case. Four large and robust tie-down points provide safe footing for additional luggage.

Built for easy handling

The touring case sports easy-to-use latches and a completely removable lid with anodized aluminum handles. The aluminum boxes also come with an opening limiter and a convenient quick release fastener; they can easily be adapted to the versatile QUICK-LOCK EVO carrier system.

Putting a stop to corrosion

The touring cases are available in silver and black color. In the silver version outer and inner case surfaces are protected from corrosion, scratches and aluminum residue by anodizing, the black case version is powder coated.

TRAX GEAR+ Touring Case Accessories

With the release of the TRAX ADVENTURE premium touring cases we also expand our accessory range for aluminum cases: The TRAX GEAR+ series focuses on high quality solutions to make your storage management as easy and comfortable as possible.

The padded TRAX GEAR+ inner bags protect your luggage even on a rough ride. Using

the integrated carrying handles the tear resistant luggage can easily be loaded and unloaded. The bags, made of non-fading, UV proof material, also offer a zipper volume adjustment to match any aluminum side case size. For storage management inner bags for the case lid are available as well. The convenient soft luggage can even be opened while stowed away in the lid. As an alternative a

highly flexible mesh net awaits the budget-conscious buyer.

Whenever you're short of storage capacity, take a look at the waterproof expansion bags that can take in up to 15 liters of luggage.

TraX® EVO ALU-BOX

Lightweight classic

With a weight of only 4.4 kilograms at a luggage capacity of 37 liters, TraX EVO is the lightest motorcycle aluminum case available. Its tough aluminum walls and the deep-drawn lid provide the necessary stability to cut a fine figure off the road, while the attractively priced cases are light enough to be used on a spontaneous trip. The versatile QUICK-LOCK EVO carrier system allows easy mounting and removal of case and carrier alike.

FEATURES

- > 4 tie-down points
- > Heavy-duty hinges with angle stop
- > 1.5 mm thick aluminum walls
- > Stainless steel latches
- > Glass fiber reinforced plastic corners, hinges and sealing frames
- > Deep-drawn lid
- > Available in powder-coated black or natural aluminum finish

Please note: ALU-BOX lock cylinder sets (p.22), QUICK-LOCK EVO side carrier/adaptor kits (p.26) and ALU-RACK top case carrier (p.30) needed for installation.

T-RaY Top Case

Best value for money

Lots of storage space at a highly competitive price: The splash proof T-RaY top cases come with up to 50 liters of capacity and can carry one or two helmets. With the included adapter plate the robust cases fit STEEL-RACK and most luggage racks. The separately sold QUICK-LOCK adapter plate allows mounting to the ALU-RACK. The touch of one button is enough for latching and locking.

Please note: For best handling we recommend the use of a QUICK-LOCK adapter plate.

FEATURES

- > Splash proof sealing
- > Inboard locking system
- > Easy-to-clean surface
- > Sizes L and XL with custom-molded inner liner
- > Back rests available separately

INCLUDED

Top case, universal adapter plate for standard luggage racks, 2 keys

Capacity: 28 to 50 l, depending on case model
Weight: 4.080 to 7.000 g
Material: Case body made of durable plastics

QUICK-LOCK EVO Side Carrier

The side carrier

The most versatile side carrier available: The QUICK-LOCK EVO system combines convenient handling, perfect fit and high flexibility. Within seconds the carriers – that can be adapted to hold cases from different brands – are installed or removed.

After the one-time installation of the nearly invisible mounting brackets (A), attaching and removal of the sturdy steel carriers with the original quick release fasteners is just a matter of seconds (B/C). The carriers are individually constructed to complement specific motorcycle models.

FEATURES

- > Can be used with or without ALU-RACK and QUICK-LOCK adapter plate for easy combination of top and side case
- > Attaches and detaches from the bike in seconds
- > Robust, powder-coated tubular steel construction.

INCLUDED

2 motorcycle model specific QUICK-LOCK EVO side carriers, mounting material

Please note: Separately sold adapter kits needed for case mounting

Side carrier adapter kits

QUICK-LOCK EVO side carriers come equipped with mounting points. This way adaptation kits can easily be attached. For most cases only a few mounting brackets need to be installed, adaptation of some brands might require the use of an adapter plate.

Mounted on the inside of QUICK-LOCK EVO carrier

QUICK-LOCK EVO Profile Side Carrier

The combination of GIVI V35 and KAPPA K33N cases with the QUICK-LOCK EVO system allows reliable, flexible and fast case and carrier mounting: QUICK-LOCK EVO profile side carriers consist of a strong steel construction with black powder coating, according adapter kits are already included in delivery.

The system can be used as a stand-alone installation or in combination with ALU-RACK top case carriers.

FEATURES

- > Case and carrier mounting and removal within seconds
- > Compatible to GIVI V35/KAPPA K33N cases and ALU-RACK top case carrier
- > Made of 4 mm, black powder-coated steel

INCLUDED

2 motorcycle model specific QUICK-LOCK EVO profile side carriers, adaptation plate, mounting material

ALU-RACK

Versatile luggage rack

The ALU-RACK is a first choice product when looking for a premium rear rack: The versatile and elegant carrier, made from powder coated aluminum, offers a perfect fit and in an instant accepts QUICK-LOCK adapter plates for all established top case brands.

To install virtually any top case system on an ALU-RACK a variety of separately sold adapter plates is available (see below).

FEATURES

- > Individually engineered for specific motorcycle models
- > Produced with highly precise CNC technology
- > Available in silver and black color
- > Can also be used together with QUICK-LOCK side carriers

INCLUDED

Bike specific ALU-RACK, mounting material, undercarriage included where necessary

 Application lists
shop.sw-motech.com // p.164

Please note: Case adapters mandatory, maximum load of up to 12 kg, motorcycle's load specifications take precedence if lower.

QUICK-LOCK EVO Tank Ring Adapter

For ALU-RACK

Using the largest piece of luggage available is not always the best choice. With this in mind we have developed a solution to couple our QUICK-LOCK EVO tank bags with ALU-RACK carriers: The tank ring adapter allows all our tank bags with quick-release fastenings and a level base to be placed on the luggage rack.

INCLUDED

Tank ring made of sturdy plastics, QUICK-LOCK fastener
Art.No.: TRT.00.640.20400/B

Please note: Separately sold ALU-RACK mandatory for installation (p.30)

QUICK-LOCK Luggage Rack Extension

For ALU-RACK

This luggage rack extension is the ideal solution to secure large pieces of soft luggage. The durable aluminum plate fits any ALU-RACK. By using the QUICK-LOCK system the extension can be attached and removed within seconds.

The ALU-RACK extension offers an especially broad holding platform and lots of tie-down points for large-sized luggage and tail bags. Three QUICK-LOCK fasteners provide safe mounting for the sturdy aluminum bridge, black powder coating prevents corrosion and protects from scratches.

SEAT-RACK

The customized solution

The SEAT-RACK was built to replace the pillion seat of motorcycles without a carrier. The versatile platform seamlessly integrates into the motorcycle's silhouette and can also be used to increase the carrying capacity of machines that already sport a rack.

FEATURES

- > Tailored to the bike model
- > Easily fastened to pillion mounting points
- > Fastenings for pillion mount included
- > Can be opened with the bike keys

- > Provides mounting for soft luggage and QUICK-LOCK tank bag adaptation
- > 4 mm thick aluminum plate
- > Foam seals keep moisture and dirt out
- > Perfect weight distribution
- > No modification of bike or pillion seat necessary

QUICK-LOCK EVO Tank Ring

The tank ring

The original QUICK-LOCK EVO system offers the perfect link between tank bag and motorcycle: The tank bag carrier combines easy handling and sturdy mounting and is tailored to the individual motorcycle model. The use of glass fiber reinforced nylon provides a reliable fit and prevents plastic residue.

FEATURES

- > Bike model specific
- > Does not interfere with refueling
- > Fast removal pull-cord release
- > Constructed with fiber glass reinforced plastic, black

QUICK-LOCK EVO Electric Tank Ring

Power up your tank bag

GPS, digital camera and smartphone have become a common view on motorcycle trips. In order to provide a charging station on the bike we have developed the QUICK-LOCK EVO Electric system.

It provides power for the tank bag by tapping into the motorcycle's electrical system and can be purchased separately or together with a tank bag. The system consists of an electric top ring for QUICK-LOCK EVO tank bags, combined with an electric upgrade kit for QUICK-LOCK EVO tank rings.

FEATURES

- > Original switch mechanism: Electricity only flows when tank bag is mounted, avoiding short circuits
- > Maximum operating current of 7.5 amps
- > Vibration-proof
- > Spring-loaded contacts
- > Top ring and electric kit made from black, fiber glass reinforced plastic

QUICK-LOCK Tank Ring

For ION tank bags

Our QUICK-LOCK tank rings serve as the carrier platform for QUICK-LOCK ION tank bags. For a secure installation on the bike we offer motorcycle model specific tank rings, made of glass fiber reinforced nylon, as well as adaptations for bikes without tank ring mounting option.

Just like the premium QUICK-LOCK EVO system (p.38) the QUICK-LOCK tank ring provides a fast and safe mounting point for tank bags. Its original quick-release fastener and durable attachment also allow the driver to

easily remove and attach ION bags for refueling and easy luggage handling.

FEATURES

- > Does not interfere with refueling
- > Fast removal pull-cord release
- > Different versions for various bikes available

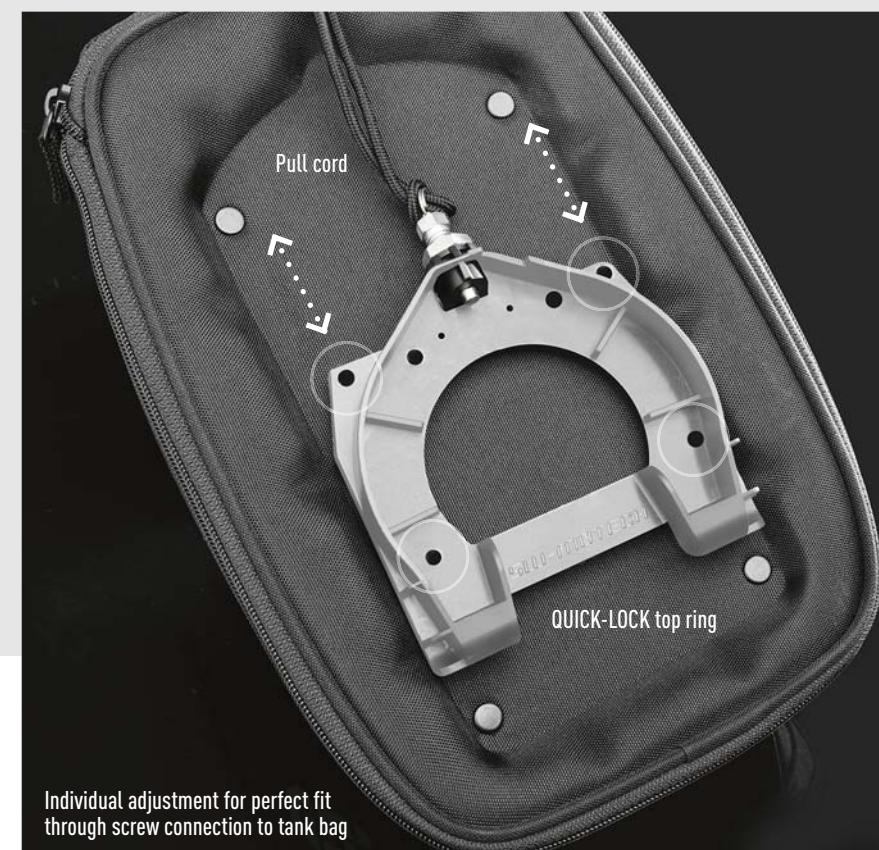

INCLUDED

QUICK-LOCK EVO Yukon 90

Keeping your luggage dry

Yukon 90 is the first waterproof tank bag with QUICK-LOCK EVO inside: The weather and dirt resistant container has been designed with the needs of all season, all terrain driving in mind. It can easily be attached to any QUICK-LOCK EVO tank ring, providing secure mounting and easy unlatching at the same time.

FEATURES

- > Water and dirt proof touring tank bag
- > Removable padded stowage organizer
- > Top flap serves as map holder
- > Retroreflective details
- > Available in gray and bright yellow
- > For QUICK-LOCK EVO tank ring

INCLUDED

Tank bag, QUICK-LOCK EVO top ring, drill, allen key, stowage organizer

Art.No. (yellow): BC.WPB.00.012.20000/Y
Please note: QUICK-LOCK EVO tank ring needed for installation (p.38)

Capacity: 9 l

Dimensions: 29 x 19 x 16 cm (l/w/h)

Weight: 900 g (without tank ring)

Material: Waterproof and easy-to-clean Tarpaulin, shape retaining EVA base

Removable padded stowage organizer

Map placed between main compartment and lid

Safety vest (p.78/79)

Drybag 350 (p.78/79)

QUICK-LOCK EVO Micro

Subtle and straightforward: Micro fits all gas tank types and during short trips takes care of personal belongings like wallet, valuables and vehicle documents. Like all QUICK-LOCK EVO tank bags, the compact Micro rests on a stable EVA basis.

FEATURES

- > Retroreflective details
- > Zippered volume expansion
- > Integrated mesh compartment
- > Cable feed-through
- > Sturdy carrying handle
- > Compatible to luggage cable lock
- > Zipper garage

INCLUDED

Tank bag, QUICK-LOCK EVO top ring, drill, allen key, rain cover

Strap tank bags

Strap Tank Bag Drybag 130

Completely watertight

Made from durable and waterproof Tarpaulin, the Drybag 130 serves as a carefree package for all weather and climate conditions. The soft luggage can easily be cleaned, fixation on the tank is secured by three robust straps. A zipper and two snap buckles provide fast access to tank bag and gas cap.

The welded volume expansion allows easy capacity adjustment without compromising the tank bag's sealing against water and dirt.

FEATURES

- > Zippered volume expansion
- > Zip fastener
- > Retroreflective details
- > Velcro for map holder
- > 2 outer pockets
- > Tank friendly bottom
- > Snap buckles
- > Removable padded stowage organizer

Material: High frequency welded Tarpaulin

RECOMMENDED ACCESSORIES

Smartphone Drybag, Tablet Drybag (p.60), map holder for A4/letter format (p.61)

Waterproof, overlapping lid with map holder velcro

Removable stowage organizer

Retroreflective details

Smartphone Drybag

Made from waterproof material, our Smartphone Drybag fits on most QUICK-LOCK tank bags (except Micro). Durable materials protect your hardware from abrasion and water. At the same time the cell phone display always stays in sight. The waterproof container also offers flexibility under cold weather conditions.

Art.No.: BC.TRS.00.152.10000

The device Drybags can easily be fastened to the tank bag D rings (see above) and velcro (tank bag rear side)

Tablet Drybag

The Tablet Drybag is made from the same waterproof plastics as the Smartphone Drybag and uses the same fittings. The large tablet bag offers enough space for a tablet PC with a 9.7 inch display. Both containers can also be used together with the tank bag volume expansion.

Art.No.: BC.TRS.00.151.10000

Map Holder

The Map holder easily fits most of our tank bags and serves as an additional compartment to put maps in both A4 and letter format on display. The handy accessory, made from sturdy 1680 D ballistic nylon, offers a variable velcro strap for use on expanded bags as well as reinforced cord locks for secure fastening on the tank bag.

Art.No.: BC.TRS.00.150.10000

The 2 cord locks are attached to the tank bag D rings

The velcro fastening easily fits expanded tank bags

Drypacks

Get organized!

From kayak sports straight to your tank or carrier: Our Drypacks, available in four sizes from 4 to 20 liters, offer a compact size and help you to organize items in tail bag or touring case. At the same time when used in non-waterproof luggage the bags provide protection from moisture.

The handy bags consist of 210D Tarpaulin with a water resistant inner layer. A strong bottom, coated on both sides, offers great

durability while the high frequency welded seams resist moisture and dust alike. A beltline hook allows fastening the Drypacks to the outside of luggage, seat or rack.

FEATURES

- > Watertight roll closure and coating
- > Removable beltline hook

NEW

Triton (1)

Simply practical

Bringing only a weight of 1.200 grams to the scale, the Baracuda's 'little brother' is among the lightest of our all weather backpacks. Apart from a smaller storage volume Triton comes with the same features as the Baracuda and is aimed mainly at sportive drivers that appreciate low weight and a flat outline.

FEATURES

- > Waterproof Tarapaulin Material
- > Roll closure design prevents wicking effects
- > Outer pocket
- > Padded 17" laptop compartment
- > Organizer meshes
- > Ergonomic shoulder strap and waist belt padding
- > Lateral volume compression
- > Strap management system

Baracuda (2)

All weather, all terrain

The waterproof backpack Baracuda offers high wearing comfort, a robust Tarapaulin skin and convenient details like volume compression and an adjustable strap harness. That the all-round, all weather luggage meets every standard that can be laid on a waterproof backpack among others is reflected by the title 'editor's choice' from the German magazine 'Tourenfahrer' (10/2014). The verdict: 'Best suited for motorcycle drivers'.

Drybag 300

For heavy weather

Challenging weather and driving conditions allow the Drybag 300 to play to its strengths: The reliable backpack protects up to 30 liters of luggage from water and dirt. The all weather rucksack comes with an ergonomic carrying system and is available in gray or bright yellow color.

FEATURES

- > Waterproof Tarapaulin material
- > Roll closure design prevents wicking effects
- > Padded shoulder straps, waist band and back for high carrying comfort and best fit

Material: Tarpaulin

ROK™ straps

The sturdy and durable ROK™ straps provide a stout support for your luggage: Designed specifically for motorcycles, ATVs and snowmobiles, the straps are easy to use, hold cargo under constant tension and have no protruding hooks that can cause scratches. The fastening loops on both ends can be secured

to just about anything, while the mid-strap buckle can easily be adjusted as needed.

INCLUDED

Set of 2 ROK™ straps, available in two lengths

Zipper Lock

This zipper lock helps to keep the contents of any SW-MOTECH tail bag and other luggage with compatible zippers safely locked away: Just attach it to the paired zipper pulls and engage the lock.

Luggage Cable Lock

Keeping your luggage safe: The cable lock is ideal for securing tank and tail bag to the bike. Simply loop the cable around the frame of the bike, then through the eye on the cable lock and attach it to the bag's zipper pulls and/or D-rings.

QUICK-LOCK GPS Mount

Tailored to each bike model

A sturdy installation and good visibility in the motorcycle cockpit – for this purpose we tailor our GPS mounts to selected bike models. This way the display always stays in sight without impairing the view to the cockpit instruments.

QUICK-LOCK functionality allows effortless installation and removal of the GPS mount. The pivoting mounting plate fits TomTom Rider and Garmin zumo®, Navi Case Pro and Smartphone Hardcases. Rubber dampening protects the hardware from shock.

INCLUDED

Powder coated adapter plate, pivotable QUICK-LOCK mount, bike specific base plate

Nonshock Bar Clamp GPS Mount

Shock absorbing GPS mount

With this shock absorbing mount all motorcycle GPS devices can be installed to the handlebar. At the same time the carefully crafted aluminum clamps, available for a variety of bar tube diameters, fit well into the styling of different motorcycles. The adapter can also be used together with our Navi Case Pro product line, combination with the GPS clip adapter is possible as well.

Rubber inserts between installation clamp and device mount provide reliable protection against shock and vibration, a pivoting joint allows adjustment of the viewing angle.

Navi Case Pro

We're proud to present a complete overhaul of our GPS bag portfolio: The splash water proof Navi Case Pro come in three sizes with a fresh design and lots of features.

The translucent lid membrane, shielded by a sun visor, allows easy manipulation of touch surfaces. Velcro straps in the padded bag help to secure the valuable hardware. The all around zipper gives easy access to smartphone or GPS, while a rubber coating prevents moisture entry.

The durable plastics base plate is prepared with a hole pattern for SW-MOTECH GPS mounts and RAM components.

FEATURES

- > Touch sensitive lid membrane
- > Sturdy case with reinforced base plate
- > Compatible with GPS mount
- > Sun visor
- > Cable port
- > Zipper tag fixation
- > Foam inlay

MATERIAL

TPU plastics base and sun screen, back and front made from shape retaining EVA

INCLUDED

Navi Case Pro, sun visor, foam inlays
Please note: GPS mount needed for installation (from p.88 on)

Smartphone Hardcases

For street and off road use

Smartphones usually are not suited for all weather and all terrain use on motorcycles. The weatherproof cases protect the valuable hardware while doing its duty as navigation unit or camera on our GPS mounts: A splash water proof plastic case with removable lid serves as a mobile 'weather safe', the soft silicone inlay protects the device from shock and offers reliable support.

FEATURES

- > Water and weather resistant plastic shell
- > Cable port
- > Adjustable 360° view
- > Touch screen operation support

INCLUDED

Case, silicone inlay, adapter for GPS mount

Please note: GPS mount needed for installation, cases compatible with iPhone 3, 4, 5, 5c, 6, iPod Touch and Samsung Galaxy S2, S5

Always in charge

GPS and smartphone have become a common sight in touring or street bike cockpits. In order to help you to supply your gear with power 'on the go', we offer nearly every imaginable connection to charge and operate electrical devices at the handlebar or inside the tank bag. All components are carefully selected to ensure longevity and reliable operation on the bike.

Universal Electric Kit

Your mobile charging station

The Universal Electric Kit supplies accessories like smartphone or GPS with power. It consists of a cigarette lighter socket with USB power port. Included are handlebar clamp brackets fitting most handlebars with a diameter of 22 or 28 millimeters. It is also possible to fasten the socket into the fairing via a threaded coupling.

The kit can be installed to almost any motorcycle, a rubber seal on top of the socket grants protection from rainwater and splash. Art.No.: EMA.00.107.20000/B

Finding the right stance on the bike is an important factor for relaxed driving, low reaction times and healthy back and joints. Ergonomics therefore for us means to provide all means for the driver to reach the best riding position possible. To this goal we commit ourselves.

Gear Levers

In a class of its own

Gear levers made by SW-MOTECH combine choice materials and innovative design with ergonomic fit: Machined from high quality aluminum alloy the levers offer either step-less or incremental adjustment. This makes it easy to find the best foot positioning.

FEATURES

- > Adjustment in 1, 2 and 3 cm intervals or steplessly adjustable unit

- > A spring lock ensures functionality, even after toppling over
- > Material: CNC-machined aluminum with HART-COAT® surface treatment

INCLUDED

Footrest Kits

Get a firm grip

The textured anti-traction surface of our adjustable footpegs offers best grip and stability to drivers of dual sport motorcycles, off road and street bikes alike. To help each driver to find the best riding position, the extremely tough and durable stainless steel footrest kits can be installed in two heights.

The removable rubber pad reduces vibration and provides best grip even when driving off road. A sturdy hinge, machined from high-strength aluminum alloy, allows the pad to fold away in case of an accident.

FEATURES

- > Large, textured surface
- > Removable rubber pad
- > Can be installed in 2 height positions on the original footrest mount
- > Material: Stainless steel footrest, rubber pad, aluminum hinge

MADE IN GERMANY

Universal Bar Riser

Finding the right height

Our broad range of universal bar risers offers a large variety of height adjustments: The ergonomic helpers, that are made from high-grade aluminum alloy, provide additional bar heights from 20 to 50 millimeters.

The robust and climate resilient bar risers fit nearly every motorcycle model with a handlebar diameter of 22 or 28 millimeters.

FEATURES

- > Hole spacing 32-38 mm (ø 22 mm) or 37-46 mm (ø 28 mm)
- > Available height for handlebars with ø 22 or 28 mm: 20, 25, 30 or 50 mm.
- > Handlebars with ø 28 mm providing a height increase of 30 mm
- > Powder coated, black or silver
- > Material: High strength aluminum alloy

INCLUDED

Bar riser, mounting material

Please note: When installing bar risers take care to adjust cockpit cable length as necessary

Universal Barback

For a relaxed ride

If you find it difficult to comfortably reach the handlebar, you should consider purchasing a barback. Our durable aluminum barbacks offer a height change of 30 or 31 millimeters and shift the handlebar 22 millimeters closer to the driver. This can mean a more relaxed and back-friendly seating position and reduced strain on the arms, resulting in better vehicle control.

FEATURES

- > Moves bar position up 30/31 mm and back 22 mm
- > Hole spacing: 32-38 mm (ø 22 mm) or 37-46 mm (ø 28 mm)
- > Powder coated, black or silver
- > Material: High strength aluminum alloy

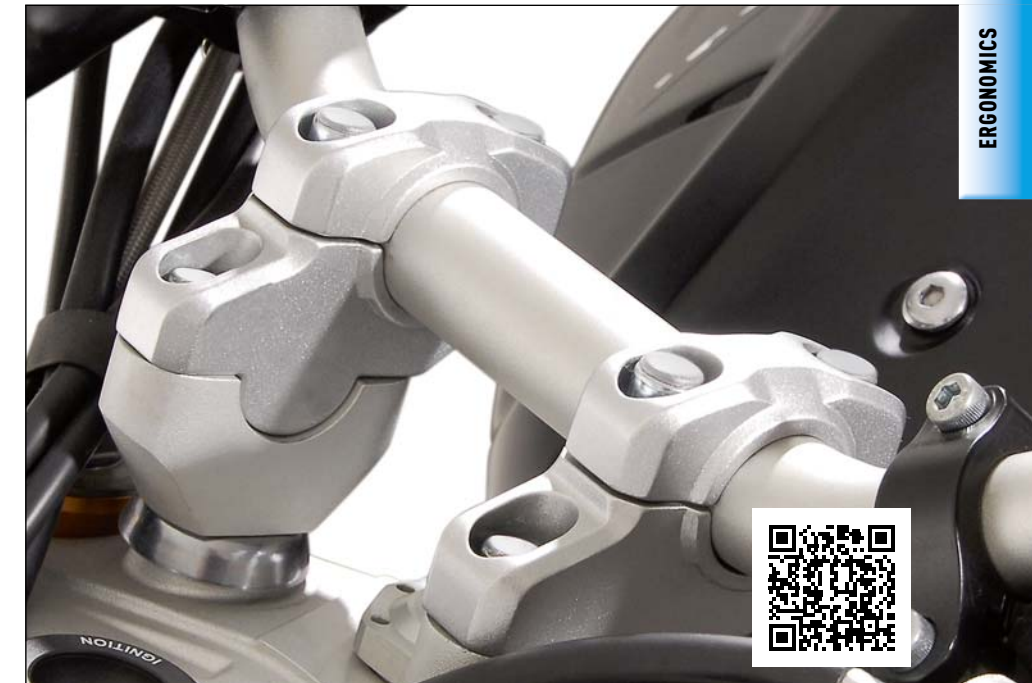

INCLUDED

Bike Specific Bar Risers

Tailored to your needs

For a broad variety of motorcycle models we offer bar risers that have been specifically tailored to the bike's design. The robust aluminum elements offer a height increase of 20, 25 or 30 millimeters and guarantee a perfect fit. The machine milled bar risers are available with black or silver or anodizing.

MATERIAL

CNC machine milled, high strength aluminum alloy with black or silver anodizing

INCLUDED

Bar riser, mounting material

Please note: When installing bar risers please take care to adjust cockpit cable length as necessary

 Application lists
shop.sw-motech.com // p.164

BEST BUY

Gear levers (p.112), footrest kits(p.114), comfort cushions (p.122), Style meets function (p.150)

Bike Specific Barbacks

A perfect fit

Offering the same high degree of customization as our bar risers the model specific barbacks seamlessly integrate into each bike's styling. Together with a raise of 31 millimeters the handlebar approaches the driver by 22 millimeters to support a relaxed riding position.

Protection from scratches and corrosion is achieved by applying high quality anodizing to the surface.

Bar Converters

Safe support

This converter allows the installation of a 28 millimeter handlebar to a 22 millimeter bar mount and at the same time offers 22 millimeters of elevation to make your ride more comfortable. The converters, machine milled from high-strength aluminum alloy, are also available in a mounting kit variant together with a 28 millimeter LSL handlebar and can be ordered with black or silver anodized surface. Hole spacing 30 – 37 mm.

Vario Barback

Maximum versatility

A highly adjustable bar raiser and barback in one product: Our Vario barbacks allow stepless adjustment of handlebar position towards or away from the driver as well as height adjustment. This provides highest versatility to support a good steering and seating position. Anodized Vario barbacks are available for 22 and 28 millimeter handlebars and as a product version with a 28 millimeter bar converter.

By employing a spacer element the adapters can provide a raise of up to 60 millimeters.

AIRHAWK® Cushions

To avoid an aching back compromising your riding pleasure, AIRHAWK® cushions use the technologies Shape Fitting® and DRY FLOATATION®. Distributed air cells eliminate painful pressure points, relieve leg and back joints and ensure a consistent blood flow.

The unique Shape Fitting Technology® offers maximum seating comfort: The driver takes a seating position deep in the cushion, air cells evenly distribute the body weight. At the same time vehicle vibrations are dampened, and the seating position is only elevated by 1-1.5 centimeters.

As a result the riding comfort especially on extended trips increases notably, the spine is relieved from pressure and the breathable material provides a better circulation, avoiding limb numbness and obdormition.

Male drivers benefit from the fact that pressure sensitive areas like prostate and testicles do not come in direct contact to the bike seat. A cutout area through the Premium cushion's center in addition allows the tailbone to literally float above the seat bench.

The comfortable cushions are available as a standard model with polyurethane inlay (2-year warranty period) or with a premium neoprene inlay (3 years of warranty).

FEATURES

- > Suitable for nearly any motorcycle model and seating position
- > Surface made from stretch material
- > Non-slip bottom
- > Waterproof inlay
- > Cover washable at 30° C
- > Weight ca. 300 g including cover

MATERIAL

Available with neoprene inlay providing high durability and increased riding comfort (cushions Premium/Comfort/DS) or inlay made from polyurethane (cushion Relax).

AIRHAWK
COMFORT SEATING SYSTEM

TRAVELLER Cushions

AIRHAWK® and SW-MOTECH in close co-operation have developed the next generation of motorcycle cushions: The TRAVELLER product line adds a stronger surface to the list of AIRHAWK® comfort features, a broad retaining strap increases mounting stability and offers anti-theft protection.

By employing the AIRHAWK® technologies Shape Fitting® and DRY FLOATION® the cushions offer relief for back and tailbone during extended rides. The comfortable, vibration dampening air cushions also support consistent blood circulation and reduce painful pressure points and sweating.

The TRAVELLER cushions' surface is made from durable synthetic leather. Fastening the

broad retaining strip below the seat provides precise positioning and theft protection. The premium seat cushion TRAVELLER PRO is targeted at drivers shopping for quality, its neoprene inlay provides additional vibration dampening and high durability. Meanwhile TRAVELLER ECO with a polyurethane inlay recommends itself to cost-aware buyers.

FEATURES

- > Suitable for nearly any motorcycle model and seating position
- > Surface made from robust synthetic leather
- > Durable, bi-elastic retaining strap
- > Non-slip bottom lining
- > Waterproof inlay
- > Weight ca. 480 g/280g (PRO/ECO) including cover

Safety first

Driving without a crumple zone: Safety for motorcyclists plays a special role - whether you go through the sloping curves of a relaxed road cruise or are tackling a tough off road course. Our crash bars, engine guards, frame sliders and handguards are designed to offer the best protection possible for you and your bike. In addition accessories like auxiliary lights and mirror extensions provide better sight and visibility.

KOBRA Extension (optional)

KOBRA LED Indicator (optional)

Aluminum backbone

KOBRA Handguards

Tough styling

Protection from stone chip, weather and in case of accidents: The sturdy aluminum backbone of the KOBRA handguard kit protects the driver's hands during accidents and when toppling over. Replaceable handguards made of shock resistant plastics provide additional shielding against weather, rocks and while driving through rough terrain.

The robust plastic handguard shells can be installed onto the aluminum backbone with in moments. Available are closed aluminum

backbones with a two point mounting on handlebar inside thread and handlebar, one point mounting* to the handlebar also is possible on selected bike models.

As accessories shell extensions that increase the protected area by nearly 50 percent can as well be purchased as LED indicators for good visibility in traffic.

Barkbusters Handguards

Versatile and durable

Fitting nearly every motorcycle model: Barkbusters handguards come in a wide variety of designs – from the shock resistant EGO protector for trial and Enduro drivers to the all-weather handguard BBZ, geared towards touring and sports motorcycles.

The tough aluminum backbone provides protection for the driver's hands as well as brake and clutch levers. For additional protection and weather resistance, plastic handguard shells are installed on the backbone. Depending on the model the protective

shells can be ordered in different colors, exchanging the shells is very easy.

CHOOSING THE RIGHT HANDGUARD

Our online shop gives quick access to Barkbusters handguard products for your motorcycle. This way you can easily select the fitting backbones, handguard shells and accessories.

Offroad

EGO (1)

The toughest handguard on the market: EGO is targeted at trail and Enduro riders that don't shy back from rough terrain. The super strong aluminum backbone together with the replaceable plastic guard offers a compact design to provide best protection even for tight off-road riding.

Suitable for: Enduro, trail, moto cross and mini bikes

⚠ Please note: Will not fit onto handle bars with long clutch and brake levers; JET or VPS handguards can serve as an alternative.

JET (2)

JET handguards sport a heat treated, super strong aluminum backbone in an ergonomic design that allows mounting to machines with long clutch and brake levers. The highly impact resistant plastic guards offer protection from the elements, three axis mounting

clamps allow easy installation. Skid plates for the aluminum backbone are available as additional accessories.

Suitable for: Dual-sports, Enduro and trail motorcycles

Street and Dual-Sports Motorcycles

VPS (3)

This handguard gives dual sports and adventure motorcycles with long clutch and brake levers plenty of space. The mounting kit consists of an extremely durable, ergonomically designed frame made from heat treated aluminum in combination with a shock resistant handguard. Skid plates and bar end weights are available as additional accessories.

Suitable for: MX, Enduro, Supermoto, Dual-Sport, ATV

Storm (4)

Cold weather protection for street bikes: The large handguards offer excellent protection against wind, rain and cold weather. Single point mounting options fit many popular street bikes, the choice between clamp handlebar mounting and bar-end mounting makes installation possible in a few steps.

Suitable for: Street motorcycles, Cruiser, naked and touring bikes

CARBON (5) NEW

The newly released CARBON protectors combine a lightweight construction with a functional, modern design. The carbon-fibre handguard will fit nearly all Barkbusters aluminum backbones and can also be used together with VPS and STORM systems. ⚠ Please note: Not recommended for off-road use, will not fit EGO system.

Suitable for: Street, cruiser, naked, touring and adventure motorcycles as well as scooters

Barkbusters Handguard Accessories

NEW

The perfect combination

BBZ (1)

BBZ handguards have been developed to help drivers of sports and touring motorcycles to keep their hands warm even under blizzard conditions: A large surface with anti-flap design flexes seamlessly around fairing and windscreen. Nevertheless the handguards are suited for most motorcycle models and can also be fitted over existing backbones.

Suitable for: Street, cruiser, naked, touring and adventure motorcycles and scooters.

Bar end weights (2)

In order to reduce handlebar vibration the end weights can be mounted to backbone installations with visible handlebar thread screws, like JET or VPS. The steel weights come with a protective black powder coating and weigh approximately 180 grams each.

Handguard skid plate (3)

Made from black plastic these protective elements shield the outside edge of JET and VPS handguards from dirt and scratches.

Bar end plugs (4-10)

The protective caps made of anodized aluminum are designed to minimize grip damage. The bar end plugs are available in black, blue, gold, orange, red, silver and titanium color and include fittings for 14 millimeter alloy bars and 18 mm steel bars.

SAFETY

Better visibility

Visibility plays a central role for safe riding – especially when fog or dense rain are impairing the field of view. HAWK auxiliary lights help you to see better and to be better seen. The fog and off-road lights are also available as energy efficient and virtually maintenance free LED variants.

1

2

3

4

1-3 HAWK LED fog lights, 2+3 Mounted with light mount set (bike-specific), 4 HAWK light clamp (set includes 2 clamps with inlays for crash bars ø 22/26/27/28 mm)

HAWK Auxiliary Lights

HAWK lights are protected from wind and weather by a solid aluminum housing which is available in silver or black color, except for the black HAWK LED fog light's body. Included in delivery are a cable harness with fuse and a splash water proof on/off switch.

HAWK FOG LIGHTS

HAWK fog lights use 2 5W LED or 55W H3 lamps to provide a broad light beam to improve visibility under foggy conditions. For use on European roads no registration or permit is necessary (ECE test mark).

HAWK OFF-ROAD LIGHTS

The focused beam of HAWK off-road lights offers a better field of view while driving off road. Like the fog lights the off-road lights come with either 2 5W LED or 55W H3 lamps.

VERSATILE MOUNTING OPTIONS

Separately sold mounting sets allow the model-specific installation of HAWK lights on frame elements or fairing. As an alternative we offer light clamps with inlays for mounting the lamps on crash bars with a diameter of 22, 26, 27 or 28 millimeters.

Engine Guards

Playing it safe

Perfect protection from rock chip and ground collision for your engine block: Our engine guards are laser cut from highly durable aluminum alloy and offer sturdy engine protection and ruggedized styling to touring motorcycles, adventure and naked bikes alike.

CNC laser cutting and bending gives the parts a perfect fit without compromising the motorcycle's ground clearance. Mount-

ing the brushed and/or powder coated skid plate, specifically designed for each motorcycle model, to original frame anchor points provides a secure fit and easy installation.

Sidestand Foot

Improve your footprint

Our side stand foot extensions offer a large contact surface to improve the motorcycle's parking footprint on rough surfaces and soft ground. During the design process our first concern was to provide good ergonomics with high quality components.

The extension is being CNC milled from high strength aluminum alloy, the combination of the anodized aluminum foot with a tough steel mounting provides great durability un-

der all climate conditions. The grooved upper ledge helps the driver to swing out the side stand easily – even while wearing heavy boots.

A competent dealer network

Advice - Assembly - Maintenance

Meet our partners in Germany: Our authorized dealers support you with their know-how and assembly services. On-site consultation concerning our award-winning technologies and original products, like the QUICK-LOCK EVO side carrier, ALU-RACK luggage carrier or ALU-BOX touring case system, is also a part of their service offer.

Motorcycle Holidays in the Alps

For nearly 20 years the 'Let's bike together' hosts are inviting you for biker's luck among the finest road curves in Tyrol, the Dolomites and the Grossglockner. In the beginning they have been the very first professionals in motorcycle vacation. Today they are the first choice for your perfect biker holidays: top facilities, best service!

General Sales Terms and Conditions

General Sales Terms and Conditions of SW-MOTECH GmbH & Co. KG, Ernteweg 8/10, 35282 Rauschenberg, Germany.

Section 1: General, sphere of applicability

(1) These General Sales Terms and Conditions (GSTAC) shall apply to all our business relationships with our customers (hereinafter referred to as the "Purchasers"). The General Sales Terms and Conditions shall apply only if the Purchaser is an entrepreneur (section 14 BGB), a legal entity under public law or a special fund under public law.

(2) The General Sales Terms and Conditions shall apply in particular for contracts governing the sale and/or the delivery of moveable items (hereinafter referred to as the "Goods") without any consideration of whether we produce the Goods ourselves or buy them from suppliers (sections 433, 651 BGB). The General Sales Terms and Conditions shall apply in the particular version concerned as a framework contract also for future contracts governing the sale and/or delivery of moveable items with the same Purchaser without our having to draw attention to this in each individual case; we shall inform the Purchaser in such a case without delay about any amendments to our General Sales Terms and Conditions.

(3) Our General Sales Terms and Conditions shall apply exclusively. Any deviating, contrary or supplementary general terms and conditions of the Purchaser shall only become a part of this Contract then and inasmuch as we have expressly agreed to their application. This requirement for agreement shall apply in every case, for example also if we carry out delivery to the Purchaser without reservation and with knowledge of the Purchasers general terms and conditions.

(4) Any individual agreements made with the Purchaser in the individual case (including ancillary arrangements, supplements and amendments) shall always have priority over these General Sales Terms and Conditions. For the content of such agreements, an agreement made in written form or our confirmation given in written form shall be decisive.

(5) Declarations and notices of legal significance which are to be given to us by the Purchaser after conclusion of contract (e.g. the setting of periods, notices of defect, declaration of withdrawal or reduction) require written form to be effective.

(6) Indications to the applicability of statutory regulations only have clarifying significance. Even

without such clarification, the statutory regulations shall apply therefore without their being amended directly or excluded expressly in these General Sales Terms and Conditions.

(7) For orders through our online shop, the indications given there shall be observed separately.

Section 2: Conclusion of Contract outside the online shop

(1) For the conclusion of contract through our online shop, the "General Terms and Conditions for Purchases in the Online Shop" included there shall apply.

(2) Our offers outside the online shop are subject to confirmation and non-binding. This shall also apply when we have given the Purchaser catalogues, technical documentation (e.g. drawings, plans, calculations, references to DIN norms), other product descriptions or documents – also in electronic form – in which we reserve title and copyright.

(3) The acceptance of the offer of purchase may be declared by us to the Purchaser either in written form or through delivery of the Goods to the Purchaser.

Section 3: Delivery dates

(1) Delivery dates or periods, which have not been expressly agreed as binding, are exclusively non-binding offers.

(2) Inasmuch as we cannot keep to binding delivery periods for reasons for which we do not bear the responsibility (non-availability of service), we shall inform the Purchase about this without delay and, at the same time, give notice of the probably, new delivery period. If the service is not available even within the new delivery period, we are entitled to withdraw either fully or partly from the Contract; any already provided counter performance of the Purchaser shall be refunded without delay. Any self-delivery by our suppliers shall be regarded as non-availability in these terms if we have concluded a congruent hedge transaction, neither we nor our suppliers have incurred any fault and we are not obliged to procurement in the individual case.

(3) The rights of the Purchaser in accordance with section 8 of these General Sales Terms and Conditions and our statutory rights, in particular in case of exclusion of the obligation of service (e.g. due to impossibility or unreasonableness of service and/or subsequent performance), are not affected.

Section 4: Delivery, transfer of risk, return of Goods free of defects

(1) Delivery shall take place ex works which shall also be the place of performance. On request by and at the expense of the Purchaser, the Goods shall also be sent to another place of destination (sale to destination). Inasmuch as nothing else has been agreed, we are entitled to determine the type of shipping (in particular the carrier, the despatch route, packaging) ourselves.

(2) The risk of accidental destruction or accidental deterioration of the Goods shall be transferred at the latest on being handed over to the Purchaser. In the case of sale to destination, however, the risk of accidental destruction or accidental deterioration of the Goods and the risk of delay shall be transferred to the carrier or the haulage contractor already on delivery of the Goods to the carrier or the haulage contractor.

(3) There is no take-back obligation for Goods delivered free of defects. If we declare that we are prepared, by way of fairness, to take back Goods which are in faultless condition and in their original packaging, a Goods credit deducting a re-storage fee of 10% of the calculated price shall be made after the Goods have been received by us and the Purchaser has provided verification of delivery. If the Goods have been unpacked but are complete and undamaged, 20% of the calculated price shall be deducted for control, packaging and re-storage work. There shall be greater deduction if the Goods are incomplete and/or damaged whereby in such cases we reserve the right to refuse to take back the Goods.

Any set-off shall only be permitted after credit has been given. Before return of the Goods in the case of being taken back for reasons of fairness, the Purchaser shall request a RMA number (Return Merchandise Authorisation) as the Goods shall be quickly and correctly assigned by us on receipt.

Section 5: Prices, payment conditions

(1) Inasmuch as, in the individual case, nothing else has been agreed, our current prices, which are applicable at the point of time of conclusion of contract, shall apply ex store plus the statutory VAT.

(2) In the case of sale to destination (section 4 sub-section 1), the Purchaser shall bear the transport costs ex store and the costs of any transport insurance if desired by the Purchaser. Any customs duties, charges, taxes or other public levies shall

be borne by the Purchaser. We shall not take back any transport or any other packaging costs in accordance with the stipulation of the Packaging Regulation; they shall become the property of the Purchaser with the exception of pallets.

(3) Our invoices are due on issuance and payable net without deduction. Any other payment period requires separate agreement. We reserve the right to request advance payment in individual cases. If direct debit has been agreed, the payment amount shall be due one day after the receipt of invoice unless a different due date has been stated on the invoice. Advance information of direct debit (SEPA pre-notification) shall take place together with the invoice. Receipt of advance information, at the latest one day before due date is sufficient (debit of invoice sum). We are entitled to demand interest amounting to the credit costs that we have to pay, but to at least one percent per month, from the Purchaser, who is a businessman in the terms of the Commercial Code (HGB), from due date onwards and from the Purchaser, who is not a businessman, from default onwards.

(4) The Purchaser shall only have the right to set-off or retention inasmuch as his claim has been established with legal effectiveness or is undisputed. In the case of defects in the delivery, the counter rights of the Purchaser, in particular in accordance with section 7 sub-section 6 sentence 2 of these General Sales Terms and Conditions, remain unaffected.

Section 6: Reservation of title

(1) Up until full payment of all our present and future demands from the Purchase Contract and a current business relationship (secured demands), we reserve title in the sold Goods.

(2) The Goods, which are subject to reservation of title, may neither be assigned to third parties before full payment of the secured demands, nor transferred for security. The Purchaser shall notify us without delay and in writing if and inasmuch access by third parties to Goods, which belong to us, takes place.

(3) In the case of behaviour on the part of the Purchaser contrary to contract, in particular in the case of non-payment of the due purchase price, we shall be entitled, in accordance with the statutory regulations, to withdraw from the Contract and/or demand surrender of the Goods on the basis of the reservation of title. A demand for surrender does not at the same time mean withdrawal; rather we are entitled to demand surrender of the Goods and reserve the right to withdrawal. If the Purchaser does not pay the due purchase price, we may only

assert these rights if we have previously set the Purchaser a reasonable period for payment without success or such setting of a period is not necessary in accordance with the statutory regulations.

(4) The Purchaser is entitled to resell and/or process the Goods, to which title is reserved, in the correct course of business. In such a case, the following provisions shall apply in addition:

(a) reservation of title shall extend to products arising from the processing, mixing and combining of our Goods to their full value, in which case, however, we shall be regarded as the producer. If, in processing, mixing or combining them with the Goods of third parties their right to ownership remains, we shall acquire co-ownership in the ratio of the invoice value of the processed, mixed or combined Goods. Otherwise, the same shall apply to the product emerging as to the Goods delivered under the reservation of title.

(b) The Purchaser shall assign demands arising from re-sale of the Goods or the products against third parties already now in full or at the amount of any co-ownership share of ours in accordance with the above paragraph as surety to us. We accept such assignment. The duties of the Purchaser stated in sub-section 2 shall also apply in view of the assigned demands.

(c) The Purchaser is also authorised to collect the demand as well as we are. We undertake not to collect the demand as long as the Purchaser meets his payment obligations towards us, does not come into default of payment, no application for the opening of insolvency proceedings has been made and no other defect in his efficiency is apparent. Is this the case, however, we may demand that the Purchaser notifies us of the assigned demands and their debtors, supplies all information necessary for collection, hands over the appropriate documents and notifies the debtors (third parties) of assignment.

(d) If the realisable value of the sureties exceeds our demands by more than 10%, we shall release sureties in accordance with our choice on request by the Purchaser.

Section 7: Purchasers claims for defects

(1) The statutory regulations shall apply to the Purchasers rights in respect to material and legal defects including incorrect and reduced delivery and incorrect or defective assembly instructions) inasmuch as nothing else has been determined in the following. In all cases the statutory special regulations in case of final delivery of the Goods to a consumer remain unaffected (supplier recourse sections 478, 479 BGB).

(2) The basis of our defect liability is, above all, the agreement made concerning the composition of the Goods. All product descriptions concerning the Goods, which are the subject matter of the individual contract, shall be regarded as agreement concerning the composition of the Goods; there is no difference here whether the product description originates from the Purchaser, from the producer or from us.

(3) Inasmuch as the composition has not yet been agreed, it shall be judged in accordance with statutory regulation whether there is a defect or not (section 434 sub-section 1 sentence 2 and 3 BGB). We do not assume any liability, however, for public statements by the producer or other third parties (e.g. advertising statements).

(4) The claims for defect claims of the Purchaser, who is a businessman, require that he has met his statutory examination and complaint duties without delay. Notice is regarded as without delay if it takes place within seven days in written form with a description of the defect. The same shall apply for defects which are discovered later.

(5) If the item, which has been delivered, is defective, we may first of all choose whether we provide subsequent performance by eliminating the defect (subsequent improvement) or by delivery of an item free of defects (replacement delivery). Our right to refuse subsequent performance under the statutory prerequisites remains unaffected.

(6) We are entitled to make the subsequent performance owed dependent on the Purchaser paying the due purchase price. The Purchaser is, however, entitled to retain a reasonable part of the purchase price in the ratio to the defect.

(7) The Purchaser shall give us the time and opportunity necessary for the subsequent performance owed, in particular to hand over the Goods which are subject to complaint for purposes of testing. In the case of replacement delivery, the Purchaser shall return the defective item in accordance with the statutory regulations. Subsequent performance means neither removal of the defective item nor re-installation if we were not originally obliged to install.

(8) We shall bear the expenditure necessary for examination and subsequent performance, in particular the transport, way, labour and material costs (not: removal and installation costs) if there is in actual fact a defect. If however, the defect elimination demand of the Purchaser turns out to be unjustified, we may demand the costs arising for this from the Purchaser.

(9) In urgent cases, e.g. if operating safety is endangered or to avert disproportionate damage,

the Purchaser has the right to eliminate the defect himself and to demand compensation for the objectively necessary expenses for this from us. We shall be informed about the action taken independently, if possible previously. There is no right to act independently if we would have been entitled to refuse such subsequent performance in accordance with the statutory regulations.

(10) If subsequent performance has failed or a reasonable period to be set for the subsequent performance by the Purchaser has expired without success, or is dispensable in accordance with the statutory regulations, the Purchaser may withdraw from the Purchase Contract or reduce the purchase price. In the case of inappreciable defects, there is however no right of withdrawal.

(11) Any Purchasers claims to damages or compensation for futile expenditure only exist in accordance with the stipulations of section 8 and are otherwise ruled out.

Section 8: Other liability

(1) Inasmuch as nothing else evolves from these General Sales Terms and Conditions including the following provisions, we shall be liable in the case of breach of contractual and non-contractual duties in accordance with the relevant statutory regulations.

(2) We shall be liable for damages – no matter for which legal reason – in the case of intent and gross negligence. In the case of ‘simple’ negligence, we shall only be liable

a) for damage arising from fatal injury, physical injury or damage to the health

b) for damage arising from the breach of a significant contractual duty (duty the performance of which enables correct execution of the Contract in the first place and on the adherence to which the contract partner may and generally rely); in this case, however, our liability is limited to compensation for the foreseeable, typically arising damage.

(3) The limitations of liability stated in sub-section 2 shall not apply inasmuch as we have maliciously concealed a defect or have assumed warranty for the composition of the Goods. The same shall apply to the Purchasers claims in accordance with the Product Liability Act.

(4) Due to any breach of duty, which does not consist of a defect, the Purchaser may only withdraw (from the Contract) or terminate if we are responsible for the breach of duty. Any free termination right of the Purchaser (in particular in accordance with sections 651, 649 BGB) is ruled out. Otherwise the statutory prerequisites and legal consequences shall apply.

Section 9: Re-sale

Active re-sale of our products by the Purchaser in countries outside Germany or active or passive re-sale in the US or Canada requires our previous expressed and written approval. In the case of such re-sale without our approval, the Purchaser shall indemnify us against any claim in particular for reasons of product liability or patent protection.

Section 10: Purchasers own examination duties

The Purchaser shall check within his own responsibility whether a product purchased by us may be assembled or used in accordance with the traffic and traffic licence provisions applicable in the intended place of use. We shall assume no liability for non-permitted assembly or taking into service unless we have expressly made a corresponding statement about the specific permissibility for the product.

Section 11: Choice of law and place of jurisdiction

(1) The law of the Federal Republic of Germany shall apply for these General Sales Terms and Con-

ditions and all legal relationships between us and the Purchaser excluding international uniform law, in particular the CISG (UN Convention on Contracts for the International Sale of Goods). Prerequisites and the effects of the reservation of title in accordance with section 6 are subject to the law of the place in which the item is stored inasmuch as in accordance with that the choice of law made is impermissible or ineffective in favour of German law. (2) If the Purchaser is a businessman in the terms of the German Commercial Code, a legal entity under public law or a special fund under public law, the exclusive – also international – place of jurisdiction for all disputes arising from the contractual relationship, either directly or indirectly, shall be our seat of business in Rauschenberg. We are, however, also entitled to take action at the Purchasers general place of jurisdiction of the Purchaser.
